Jazmyn's a fighter

"After bad leg pains and overwhelming tiredness, Jazmyn's Doctors found something was wrong with her blood. Possibly leukemia. I was scared and angry.

Not long after, Jazmyn was diagnosed with stage 4 neuroblastoma. I remember being in Jazmyn's room and her doctor came in and said we got the results let's talk. The doctor continued, 'I'm sorry but it's a whole lot worse than we thought'. I instantly froze. I broke. My world shattered around me, I was crying and shaking.

In the last 14 months Jazmyn has had 10 rounds of chemo, a stem cell transplant and then she's also had radiation.

Through all of this though there is only a couple of things that have kept her going and her teacher Julia is one of them. Without her she would be very, very behind in school because Jazmyn hasn't been to school in over a year now.

But thanks to the education through the hospital Jaz hasn't fallen behind very much at all.

Thank you for what you do for Jazmyn and thank you to all who help make it all possible for a little girl like Jazmyn to still have the schooling that she needs."

- Chantelle (Jazmyns' mum)

"I had just started Year 12 and was worried about missing so much school. Fight Cancer Foundation came to my rescue and funded a teacher."

Harrison

"We are so grateful for the amazing work of Fight Cancer Foundation in supporting families such as our own."

Merryn and Tony, Charlie and Ellie's parents.

"He was able to focus on something other than what treatment he was receiving or what drugs were being pumped into him,"

Anna, Luca's mum.

Giving hope. Saving lives.

How you're helping families fight cancer

Research

Cancers of the blood – leukaemias, lymphomas and multiple myeloma – affect people of all ages and are one of the largest causes of cancer death in Australia. Your caring donations throughout the year help researchers discover new and better ways to treat patients fighting blood cancers.

Accommodation

Thanks to your support during the year, we can provide comfortable accommodation to families who need to travel long distances to access life-saving medical treatment. This support to families is one less thing to worry about, and keeps families together at the most important time.

Youth & Education

When children and young people live with cancer, too much of their time is spent in hospitals and out of school. Thanks to you, our education program 'Back on Track' brings school to children. It means children fighting cancer don't fall behind. It's also a wonderful distraction from their cancer treatment.

**Thank you for all you do
for families fighting cancer**
