

Footy Colours Day at home

Even if you're working from home, you can still host a Footy Colours day event. Bring everyone together online and enjoy some team-bonding while helping kids with cancer.

Use our [step by step guide](#) to help you host a virtual event at your workplace this year!

Step 1.

Register with an [online fundraising page](#)

Having an [online fundraising page](#) for your event is the best and easiest way to collect funds without the need for physical cash. You can personalise your page by adding photos and explain why you are taking part. Send out your page link far and wide to direct people to your page to donate!

Step 2.

Use [Skype](#), [Zoom](#), [Google Hangouts](#) or any video chat platform to host

Bring your workmates together virtually for some light-hearted footy fun using your preferred video chat platform. Use the links above to find out which one is best for you. Send out the meeting link prior to your day so everyone can pop it in their calendars!

Step 3.

Get creative. Plan your day!

Spice up your event by planning some fun activities! You might like to get the creative juices flowing with a virtual bake-off, or keep everyone on their toes with our Footy Colours Day fines. Visit our [Tips & Ideas hub](#) for more!

Step 4.

The big day

Get everyone involved, jump online and let everyone's footy colours shine and the laughter flow. Play games such as trivia, bingo and guess the player to make sure everyone has a great time! You can find remote friendly games in our [Tips & Ideas hub](#).

Step 5.

Raise important funds for kids with cancer

Ask colleagues to donate what they can to your company's **online fundraising page**. Whether they donate the cost of their morning coffee or their commute to work, every dollar you raise helps kids with cancer keep up with school!
